Clean Lakes Alliance Update - Paul Dearlove

Paul Dearlove, in his Clean Lakes Alliance quarterly update, highlighted the Frozen Assets Festival and how a larger share of revenues from this successful event is now being given to partners. In 2017, CLA is donating \$100,000 to Yahara WINs and \$30,000 to Yahara Pride Farms for practice installation north of Lake Mendota, with hopes that these awards can be given annually.

Dearlove also spoke about the Yahara Watershed Academy's inaugural class and the May 3 community breakfast. UPDIKE requested a future update on CLA's mini-grants to local water organizations. In response to a question by POWER, Dearlove said that there are no immediate plans to hire the policy director position.

G. Reports to Committee

1. Community Engagement Report

Sandford's verbal highlights of her monthly report focused on upcoming Watershed Network Gatherings, review of the Door Creek bike tour, and installation of the watershed model at the zoo.

2. Work Team Reports

The Phosphorus Team will meet soon. Supervisor Chenoweth provided an update on manure management topics before the Land Conservation Committee, and requested ongoing Commission collaboration on this and other phosphorus management topics. Commission members emphasized the importance of community engagement (including Yahara Pride Farms) on any policy proposals, and noted issues with manure spreading in grassed waterways.

3. WI Salt Wise Report

Sue Jones reported that the guidelines development contract is moving forward, and that city and county staff are meeting to coordinate efforts.

H. Announcements

Emily Jones said that the District's 2017 salt reduction rebate program is now open for proposals by commercial/industrial facilities to implement projects that reduce chloride in their facilities.

I. Future Meeting Items and Dates

April 6 - Executive Committee

April 20 - Full Commission

April - County Conservationist Amy Callis will meet with the Commission

May - tentative commission, CARPC, and natural resources committees joint briefing and discussion of the Stormwater Technical Advisory Committee report
