Six Standards of a Conditional Use Permit

Provide an explanation on how the proposed land use will meet all six standards.

1.	The establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, comfort or general welfare.
	The public works equipment is current kept outdoors on-site. The proposal is to construct a new building to house the equipment indoors and shield it from view.
2.	The uses, values and enjoyment of other property in the neighborhood for purposes already permitted shall be in no foreseeable manner substantially impaired or diminished by establishment, maintenance or operation of the conditional use.
	The public works facility has been operating in the location for over 25years. The proposal will reduce the impact in the neighborhood by storing equipment indoors.

- That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.
 - The site has been used by the public works department for along time. The surrounding area is existing residential housing. There is no anticipated development for the area.
- 4. That adequate utilities, access roads, drainage and other necessary site improvements have been or are being made.

The existing roads are adequate to support the public works facility. No improvements are needed.

5. Adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.

The ingress and egress to the site are existing. Access is used intermittently throughout the day.

6. That the conditional use shall conform to all applicable regulations of the district in which it is located. The building will comply with the commercial building code.

Operations plan for CUP 02392 Town of Albion

This CUP will bring the Town of Albion's existing land use into compliance with current ordinances. This new building will allow indoor storage of all Town of Albion equipment, much of which is stored outside at the present time. There is outside storage of gravel for shouldering and use on gravel roads during the warmer months. Outdoor activities include loading trucks with gravel as necessary and also loading plow trucks with sand and salt mix from salt shed during winter months. Minimal lighting will be added on new building and will be directed downward. No outside load speaker or signage will be added. Trash removal will be handled the same as all other buildings on the site. Hours of operation are normally 6:00 a.m. to 3:00 p.m. Monday thru Thursday and 6:00 a.m. to 10:00 a.m. Fridays, some nights and weekends depending on the weather. There are two full time employees.

Town of Albion Julie Hanewall, Clerk
