

The Sequential Intercept Model: —Advancing Community Based Solutions for Justice-Involved People with Mental and Substance Use Disorders

© 2014 Polaris Research Associates, Inc.

Technical Assistance MAY be available for Dane County criminal justice stakeholders and advocates through the MacArthur Foundation Safety and Justice Challenge. During the mapping process, the Dane County team will be introduced to evidence-based practices and emerging best practices from around the country. The goal of the training is the creation of a local strategic plan based on the gaps, resources, and priorities identified by stakeholders.
