**Dane County would like to contract with Weaver Consultants Group to provide and install a vapor based odor control system around the eastern and norther perimeter of the landfill. This system will help control odors at the landfill.**

**This is an odor control product, and it is the product and system that has shown the greatest capability to neutralize landfill odors at our site. Staff has tested numerous odor control products, and this product from WCG is the only product that has been effective at reducing odors at the Dane County site.**

**Staff also visited 2 landfills currently using this system and spoke at length via video conference call with a 3<sup>rd</sup> landfill using this system.**
