D. Reports to Committee

Dejung stated a future talk would be to see if Emergency Police Dispatch Protocols should be implemented. Currently Minneapolis is using a newer version of this and would like to see how this is working. Future meetings along with a work group on this would be formed to see if this should be used. Current meetings have been going on with Emergency Management and the use of Social Media during high impact events.

Workgroups continue to meet, with the exception of the Technical Services work group as they are currently meeting on an as needed basis.

DaneCom now has all 10 channels fully operational. There were a few notes about DaneCom in the past few months. November 2, 2017 was a GPS clock issue at the WJJO tower, no effect on the users. November 9, 2017, human error with paging. November 23, 2017, 9minute 28second problem, P25 would not allow users to register. January 3, 2018 4:52am scheduled maintenance where the 10th channel was brought back.

CAD - settlement agreement and amendment resolved. Currently there are around 70 trouble tickets, down from 110 tickets.

Answer times continue to be above the required standard at 98% in 15 seconds or less.

Two things coming will be new mapping capability as well as upgrade text to 911 capability.

FirstNet has been approved by the Governor, the AT&T system is now available state wide for this.
