

Dear

My name is Juakein Coles and I am Magics owner, and when I go to work my uncle's and grandmother looks after him and my other dog Queen.

As we all can see magic is not getting the proper attention as far as going about the dangerous dog rules and I know there the one rule that I haven't got done yet and that's to get magic neutered, I just recently heard that the Humane Society does it for free or small cost. Then I will put magic in some dog obedience, and Behavior classes I've already been calling around to see who will take him, and I will relocate him to a more suitable location.

Magic isn't a bad dog u should see him with me and my 10 year old daughter he is like a big baby and thinks he's a lap dog. I do know that magic is very protective but the classes will be able to tame that so he knows how to control it. Dog are kind of like humans u wouldn't just put a human down just because he had a rough start you will try to see what you can do for him/her like classes then if that doesn't work then it's the next step.

Magic is my son part of my family all I ask is can we try this and u will not regret it please, and my other dog Queen just had a stroke so it's like I'm losing two children.

I thank you for spending a few moments reading my letter and I hope you can consider giving magic one more chance.

Sincerely, Juakein Coles
