E. Reports to Committee

1. Executive Summary draft review (Koenig)

Koenig shared drafts of the HS and MS data reports and the Executive Summary using the WYRBS as a template. Committee discussed formatting, data weighting and need for explanation in the introduction, content and how to select what to include, how to include health disparity data and doing analysis of trends for statistical significance. Koenig will provide committee members reports running each item per demographics including race, bio sex, sexual identity, sexual orientation and economic status to consider what content to include in more detail. Committee members will share structure and formatting suggestions. Introductory language from 2015 report will be reviewed as many of the issues raised were addressed in the last report. Committee should also review the HS and MS data reports and provide feedback as well.
