Lacy Heights Pond

A City of Fitchburg Stormwater Facility

5824 Persimmon Drive

Program Achievements

- 65 Projects - 50 Completed/15 Ongoing or Pending
- \$23 million total project costs (\$7 million in cost share)
- Annual trap nearly 1 million pounds of sediment
 - Over 50 dump trucks of sediment per year
- Annual trap more than 3,700 pounds of Phosphorus
 - Every pound of P can produce 500 pounds of algae

Moving Forward (2019)...

- Approximately \$1.6 million in 2019
- Add volume control (infiltration) projects to eligibility
- 50% Cost share up to \$500K
- Replace “Top Ten” with performance-based prioritization.
- Remove application deadline – accept applications throughout the year
