The Dane County Department of Public Works, Highway & Transportation has determined that the Mickelson bridge B-13-178 on CTH J is in need of reconstruction. Recent inspection and structural capacity engineering analysis required closure of the bridge. The bridge will be reopened after repairs are made. However, a more permanent solution is required.

After making the following transfer into a new capital account, the Department has funds available in account HWCONCAP-NEW to cover the design costs.

NOW THEREFORE BE IT RESOLVED that the following fund transfer be made to increase the design budget:

| | |
|----------------|-------------|
| HWCONCAP-NEW | \$151,068 |
| HWCONCAP-59066 | (\$151,068) |

BE IT FINALLY RESOVED that any unexpended funds as of December 31, 2019, in the above mentioned accounts be carried forward to 2020 .
