

Dane County

Minutes - Draft

Land Information Council

Consider:

Who benefits? Who is burdened?

Who does not have a voice at the table?

How can policymakers mitigate unintended consequences?

Attachments: [2019 MIN-146](#)

The minutes were unanimously approved by Gallagher/Violante.

C. Action Items**D. Presentations****E. Reports to Committee***Fly Dane 2022-2026 Proposal - F. lausly*

lausly presented the Fly Dane 2022 proposal to the council, the seventh County-wide Fly Dane project. There has been an increased need for more frequent flights and it is recommended that we change this 3 year project to a 2 year project. The 2022 project would capture 6 inch county wide imagery which would be available as open data. Those municipalities interested in upgrading to 3 inch imagery could do so. The cost would closely resemble the 2020 Fly Dane costs, and Dane County would again fund the base level project. The State Strategic Initiative Grant would provide \$40,000 in funding. If the County decides to go with the two Year Fly Dane cycle starting in 2022 as recommended, it may require future budgeting of increased data storage.

2021 LIO Preliminary Budget - J. Mueller

lausly described the extensive LIO staff project list, noting the budget impacts when pertinent. Mueller then presented the 2021 Land Information Office requested budget. This budget is based on the Register of Deeds office recording 80,000 documents, similarly to the 2020 budget. The budget incorporates a Land Record System Grant, a Strategic Initiative Grant, the Fly Dane 2022 process (must start in 2021), some Conference and Training needs and ESRI maintenance. The ESRI floodplain annual software maintenance will be changed to a named user sign in model, which will greatly increase the County's cost to utilize, although it is not known when that will happen. Violante inquired about the LIO LTE longevity and if discussions ensued regarding going to a FTE position.

The proposed budget documents were unanimously approved by Gallagher/Violante.

GCS Future Changes and Options - T. Everson & S. Cripps

Gallagher and Everson explained that due to COVID19 and Act 185 the County will waive interest and penalties on delinquent tax payments. This requirement necessitates recoding parcel software. GCS, our parcel records software vendor, is requiring us to go to their cloud based software in order to initiate this new requirement. The County has concerns, as it requires another contract and introduces a third party into this solution. The Planning & Development Department has used a Fidlar Technology software program called LYNX for years to integrate with the Register of Deeds office. This software has improved property records work flow efficiencies. Fidlar Technologies no longer wishes to support this program and has instead provided the Planning & Development Department with the software source code so they can continue to utilize the program.

F. Future Meeting Items and Dates

September 17, 2020 at 9:00am
Location TBD

G. Public Comment on Items not on the Agenda

H. Such Other Business as Allowed by Law

I. Adjourn

The meeting was adjourned by unanimous approval at 9:57am by Gallagher/Frick.

NOTE: If you need an interpreter, translator, materials in alternate formats or other accommodations to access this service, activity or program, please call the phone number below at least three business days prior to the meeting.

NOTA: Si necesita un intérprete, un traductor, materiales en formatos alternativos u otros arreglos para acceder a este servicio, actividad o programa, comuníquese al número de teléfono que figura a continuación tres días hábiles como mínimo antes de la reunión.
