1.   Provide a list of all the fines and fees that are assessed through your department services.

        For each fine/fee identified in response to #1, provide the following information:

2.   What are the demographics of individuals who are assessed each fine/fee?

        a.   number of total individuals assessed the fee in 2019 (or the most recent year you
                have data)
        b.   race
        c.   gender
        d.   age

3.   How much money is annually collected from each fine/fee (or total fines/fees, if you cannot
        break down by each one)? Where does the money go?

4.   After assessing the fine/fee, what percentage of individuals remit payment without the use
        of any collection efforts?

5.   If the fine/fee can be waived, what is the process for it being waived (indigency/income
        level for example). How does an individual know about the ability for waiver?

6.   If the fine/fee can be reduced, what is the process for the reduction? How is the reduction
        amount determined?

7.   Are there any non-financial consequences if the assessed fine/fee is not paid? Could
        nonpayment result in loss of a currently held service or benefit (loss of driver's license, for
        example), or loss of entry or access to a desired service (electronic monitoring, for
        example)?

8.   Does Dane County Government have authority to reduce or eliminate the fine/fee?

9.   If the amount due is not paid, and it is not waived, is there an effort to collect?

        a.   If yes, what is done?
        b.   What is the annual budget spent on collections efforts?
        c.   Is there any staff time or outside costs spent on collections that is not budgeted?
        d.   What is the success rate of collection efforts? What percentage remit payment after
                collection efforts?
