through machine twice - Reduce vote for Biden

To clarify the math on reconciling the absentee ballot results:

Badger Book count for absentee ballots was 2208.

? Absentee dedicated DS200 count was 2208.

There were 2207 absentee envelopes.

As noted in the absentee inspector statement, there were three numbers given to people in error so there were 3 more numbers issued than ballots put in DS200.

2 voters returned absentee ballots but were not in Badger Books. Their information was added to the supplemental sheet. These two were counted by the DS200 but not reflected in an issued number which brought the disparity to 1 which was reflected in the difference of the machine count and the number of absentee envelopes.

#5 in the absentee inspector statement documents the inspector thinking that 2 ballots were put in together but the machine only counted one so they opened the machine and put the last ballot through again thinking it had not been counted.

We counted absentee ballots and had 2207 which matches the envelope count.

Let me know if you have additional questions.

Christine Capstran, Clerk
