The Greater Madison MPO (MPO) is developing a process for soliciting applications for and selecting projects to be funded with the local apportionment of CRRSAA Section 5310 Program funds. This is a working document/draft that contains currently-available USDOT/FTA resources and information on the CRRSAA and the Section 5310 Program, as well as relevant currently-adopted MPO strategies and priorities for Section 5310 Program funding. MPO staff suggestions and questions are highlighted or otherwise identified as such.

.....

The U.S. Department of Transportation's Federal Transit Administration (FTA) has a nnounced a total of \$14 billion in Federal funding allocations to continue to support the Nation's public transportation systems during the Coronavirus Disease 2019 (COVID-19) public health emergency. Funding is provided through the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA) (H.R. 133).

"This additional \$14 billion in transit infrastructure grants will help ensure our nation's public transportation systems can continue to serve the millions of Americans who depend on them," said U.S. Transportation Secretary Elaine L. Chao.

CRRSAA and Section 5310: The Basics [change language for public release]

- Projects may be funded by 100% federal dollars (no local match) but the MPO may require a local match
- No requirement for Traditional Projects (usually 55% of total funding)
- MPO can come up with a new/abridged project selection process than what is
 designated in the PMP, but we need to document our selection process and notify the
 regional FTA office of how we make the selection
- Operations and Payroll are priorities for funding; Planning and Capital projects can be funded but the (sub)recipient needs to certify that they do not have any employee furloughs—MPO may restrict eligible projects to Operations and Payroll
- Operating expenses incurred since Jan. 20, 2020 are eligible
- FTA FAQ page being added to, check back frequently
- Dane County/Madison Metro Area apportionment is \$54,368

Funded projects must be identified in local <u>Coordinated Public Transit – Human Services</u> Transportation Plan:

Suggestions for limits/priorities for CRRSA funding shown below. Priorities in strikethrough text are not recommended for consideration for CRRSAA funding.

General Priorities

The coordinated planning process has established two priority tiers. Tier 1 represents the highest priority level.

<u>Tier 1- Maintain existing level of service of viable programs or operations</u> [Recommend focusing CRRSAA funding on this Tier]

Tier 1 supports existing transportation services and projects that:

- Have shown to be effective in meeting transportation needs of seniors, people with disabilities, and those with limited income
- Continue to demonstrate effective transportation operations within the county's coordinated network

 $\underline{\text{Tier 2A-Accommodate increasing demand for services within existing programs and operations}}$

Tier 2A supports existing and new services and projects that:

- Require capital and operating assistance to meet growing demand for the service(s) within present boundaries [Appropriate for CRRSAA funding]
- Are able to improve efficiency and functionality by building on existing infrastructure
- Allow for growth, but not automatically extend new service without a careful evaluation of transportation needs a cross populations and jurisdictions

 $\underline{\text{Tier 2B-Respond to emerging community needs, opportunities, and create new partnerships}$

Priority #2 B supports projects that:

- Are under development and bring new resources
- Address identified transportation needs and gaps and/or focus on an underserved group of individuals
- Improve the efficiency and effectiveness of the overall system
- Provide an added benefit to the transportation services network and riders
- Are innovative in their approach in reaching out to new riders or geographic areas

Priority Strategies to Address Needs

The following strategies and projects have been identified in order to address the recognized transportation and coordination gaps and needs in Dane County. Many of these strategies have been carried over from previous coordinated plans and are of an ongoing nature.

Strategies to Address Financial Needs

Pursue additional funding strategies to support increased service needs

| Funding for Service | Establish a regional transita uthority with a dedicated funding source |
|-----------------------------|--|
| Providers Providers | |
| Afforda bility for Users | Continue to provide financial assistance for low-income families, veterans, homeless individuals, and paratransit eligible clients who also ride fixed-route buses |
| | Continue to support employee transportation assistance programs |
| | Continue to provide financial assistance for low-income individuals to |
| | purchase or repair a vehicle for employment transportation where |
| | public transportation is not a vailable to meet need |
| Strategies to Addre | ss Coordination, Education , and Outreach Needs |
| Mobility | Continue to support Dane County One-Call Center |
| Management | Continue to support Metro Paratransit in-person assessments |
| Rider Education | Continue to support travel and mobility training programs |
| Outreach | Improve information on available resources |
| | Convene regular meetings to discuss coordination needs |
| | Seekgreaterstakeholder involvement in the coordination process, |
| | particularly from education and healthcare providers and residential |
| | care facilities |
| Strategies to Addre | ss Service Needs |
| Service | Expand public transits envice area, hours, and frequency |
| | New regional fixed-route bus service |
| | Develop Bus Rapid Transit (BRT) service |
| | Additional scheduled group transportation service |
| | Continue and increase transportation to work options |
| | Continue to provide mileage reimbursement for RSVP drivers |
| | Expanded and increase shared-ride taxis ervices |
| Strategies for Addre | essing Vehicle Needs |
| Vehicles | Replace ve hicles as necessary |
| | Add accessible vehicles for eligible shared-ride taxi systems |
| | Add accessible vehicles for eligible non-profits without duplicating |
| | existing transportation services in Dane County |
| | Investigate feasibility of creating a vehicle pool to allow a greater |
| | availability of a ffordable, a ccessible vehicles for non-profit |
| | organizations and agencies |
| | Investigate feasibility of creating county-wide driver training |
| | opportunities |
| Strategies to Addre | ss Infrastructure Needs |
| Amenities | Improve amenities at bus stops, including concrete boarding platforms, |
| | shelters, benches, and audible signals where needed |
| | Improve pedestrian access to bus stops |
| | Implement Metro Transit Bus Stop Amenities Study |
| Facilities | Add a satellite bus storage facility |
| Strategies to Addre | ss Technology Needs |
| | <u></u> |

Commented [BL1]: Consider not funding gov't agencies, as they likely have a larger financial safety net than private operators & service providers

| Technology | Develop real-time information for specialized transportation services |
|-----------------------|---|
| | Maintain or add software and applications to assist with scheduling, |
| | routing, dispatching, mandatory data collection, and similar tasks |
