

APPRAISAL OF

A Single Family Dwelling

LOCATED AT:

162 Talmadge Street
Madison, WI 53704

FOR:

Dane County Treasurer
Rm 114, 210 Martin Luther King Jr. Blvd.
Madison, WI 53703

BORROWER:

Client: Dane County Treasurer

AS OF:

July 13, 2021

BY:

Tenny Albert
Wisconsin Certified General Appraiser #154

August 3, 2021

C/O
Dane County Treasurer
Rm 114, 210 Martin Luther King Jr. Blvd.
Madison, WI 53703

File Number: DCT_Talmadge_2021

To Whom it May Concern;

In accordance with your request, I have appraised the real property at:

162 Talmadge Street
Madison, WI 53704

The purpose of this appraisal is to develop an opinion of the market value of the subject property, as improved.
The property rights appraised are the fee simple interest in the site and improvements.

In my opinion, the market value of the property as of July 13, 2021 is:

\$100,000
One Hundred Thousand Dollars

The attached report contains the description, analysis and supportive data for the conclusions,
final opinion of value, descriptive photographs, limiting conditions and appropriate certifications.

Respectfully;

Tenny Albert
Wisconsin Certified General Appraiser #154

Note: Race and the racial composition of the neighborhood are not appraisal factors.																
Neighborhood boundaries and characteristics: East side of Madison, north of Atwood Ave. south of East Washington Ave, between First Street and Milwaukee Street. Downtown residential neighborhood within walking proximity to most services.																
Factors that affect the marketability of the properties in the neighborhood (proximity to employment and amenities, employment stability, appeal to market, etc.):																
The subject is in an older working class neighborhood that housed workers in the older industrial uses. Now it serves the home buyers market																
looking for downtown proximity and overflow from more expensive surrounding areas. The larger neighborhood is very popular with young families due to the walkability and proximity to shopping, restaurants, bars and entertainment. Two lakes and a connecting river bracket the area, Downtown is one mile west.																
PUD	Market conditions in the subject neighborhood (including support for the above conclusions related to the trend of property values, demand/supply, and marketing time - - such as data on competitive properties for sale in the neighborhood, description of the prevalence of sales and financing concessions, etc.):															
	Overall, market conditions have remain very strong over the past year with median prices moving up. Demand is overmatching supply and prices are being bid up beyond list price in many sales, There are few seller financing concessions. The subject market remains particularly strong due to the high desirability of the neighborhood and the lack of available housing. Prices are very strong and dwellings sell quickly. Recent events have impacted market momentum.Market conditions have improved and remainedvery strong over the past year with median prices edging up. All sectors are selling well - upper end and affordable neighborhoods.															
	Project Information for PUDs (If applicable) - - Is the developer/builder in control of the Home Owners' Association (HOA)? ☐ YES ☐ NO															
	Approximate total number of units in the subject project . Approximate total number of units for sale in the subject project .															
	Describe common elements and recreational facilities:															
	Dimensions 40 feet frontage						Topography		Level							
	Site area 4,800 Sq.Ft. Corner Lot ☐ Yes ☒ No						Size		Typical							
	Specific zoning classification and description TR-V1 Residential						Shape		Regular							
	Zoning compliance ☒ Legal ☐ Legal nonconforming (Grandfathered use) ☐ Illegal ☐ No zoning						Drainage		Adequate							
	Highest & best use as improved: ☒ Present use ☐ Other use (explain)						View		Residential

COMMENTS	Additional features (special energy efficient items, etc.): Property has had minimal updates and most features and components are very old. The mechanicals are dated and the appraiser can not state condition.															
	Condition of the improvements, depreciation (physical, functional, and external), repairs needed, quality of construction remodeling/additions, etc.: See Attached Addendum.															
Adverse environmental conditions (such as, but not limited to, hazardous wastes, toxic substances, etc.) present in the improvements, on the site, or in the immediate vicinity of the subject property: Subjec improvements may have mold and pest issues due to vacancy and water damage..																

COST APPROACH

ESTIMATED SITE VALUE = \$ 90,000

ESTIMATED REPRODUCTION COST-NEW OF IMPROVEMENTS:

Dwelling 1,108 Sq. Ft. @ \$ 180.00 = \$ 199,440

Bsmt. 616 Sq. Ft. @ \$ = 0

Porches = 8,000

Garage/Carport 0 Sq. Ft. @ \$ = 0

Total Estimated Cost New = \$ 207,440

Less 90 Physical Functional External Est. Remaining Econ. Life: 5

Depreciation \$195,915 = \$ 195,915

Depreciated Value of Improvements = \$ 11,525

"As-is" Value of Site Improvements = \$ 0

INDICATED VALUE BY COST APPROACH = \$ 101,500

Comments on Cost Approach (such as, source of cost estimate, site value, square foot calculation and for HUD, VA and FmHA, the estimated remaining economic life of the property):

Cost Approach provided reflects probable new construction cost and thus does not reflect current condition of subject. Current condition is poor to fair and estimating physical depreciation is not possible. The cost value is an upper limit.

SALES COMPARISON ANALYSIS

Comments on Sales Comparison (including the subject property's compatibility to the neighborhood, etc.): Sales are mostly of a similar size and age and most are within the larger subject neighborhood. Most of the sales are estate sales and sold in "as is" condition. All of the sales were in better condition than the subject and thus all sales were adjusted down 10% in the "Habitable at Sale " category. Sales without basements are adjusted up \$5000. Other adjustments reflect typical features and conditions. Given the state of the subject - full of trash - it was difficult to discern all specific features and problems besides the most obvious. However, subject is located is a desirable neighborhood and housing demand exceeds supply. Sale 5 is an example of the upside of buying, renovating and reselling older homes. Subject likely to be torn down or gutted.

INDICATED VALUE BY INCOME APPROACH (If Applicable) Estimated Market Rent \$ /Mo. x Gross Rent Multiplier = \$

RECONCILIATION

This appraisal is made X "as is" subject to the repairs, alterations, inspections or conditions listed below subject to completion per plans and specifications.

Conditions of Appraisal: The appraiser makes no assumptions as to the condition of any mechanical or electrical system or to the dwelling itself or as to any health hazards. As noted, a true evaluation of condition can only occur when dwelling is cleaned out.

Final Reconciliation: Direct sales approach is most reliable due to similar sales in location, size, age, style, and condition. The cost approach is notliable - and not considered - due to the age of the subject and the difficulty of estimating the amount of accrued depreciation. The income approach is less reliable due to owner occupant appeal.

The purpose of this appraisal is to estimate the market value of the real property that is the subject of this report, based on the above conditions and the certification, contingent and limiting conditions, and market value definition that are stated in the attached Freddie Mac Form 439/Fannie Mae Form 1004B (Revised).

I (WE) ESTIMATE THE MARKET VALUE, AS DEFINED, OF THE REAL PROPERTY THAT IS THE SUBJECT OF THIS REPORT, AS OF July 13, 2021 (WHICH IS THE DATE OF INSPECTION AND THE EFFECTIVE DATE OF THIS REPORT) TO BE \$ \$100,000.

ADDENDUM

Borrower: Client: Dane County Treasurer		File No.: DCT Talmadge 2021	
Property Address: 162 Talmadge Street		Case No.:	
City: Madison		State: WI	Zip: 53704
Lender: Dane County Treasurer			

Condition of Improvements

Subject is in very poor condition and is full of trash. The subject will likely need total renovation as both the bathroom and kitchen are barely functional. There are hole in the front porch ceiling and it has caved in at the center. The old one car garage has collapsed. Bathroom has lost ceiling plaster in places due to water damage. Roof is dated and likely needs replacement. The subject is not habitable at this point and the true extent of any damage can not be discerned until all of the trash and debris is removed and a complete physical inspection undertaken. Driveway has deteriorated and backyard is overgrown with weed trees.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the Appraiser's judgment.

STATEMENT OF LIMITING CONDITIONS AND APPRAISER'S CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
2. The appraiser has provided a sketch in the appraisal report to show approximate dimensions of the improvements and the sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
5. The appraiser has estimated the value of the land in the cost approach at its highest and best use and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
6. The appraiser has noted in the appraisal report any adverse conditions (such as, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
7. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
8. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice.
9. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
10. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.

APPRAISERS CERTIFICATION: The Appraiser certifies and agrees that:

1. I have researched the subject market area and have selected a minimum of three recent sales of properties most similar and proximate to the subject property for consideration in the sales comparison analysis and have made a dollar adjustment when appropriate to reflect the market reaction to those items of significant variation. If a significant item in a comparable property is superior to , or more favorable than, the subject property, I have made a negative adjustment to reduce the adjusted sales price of the comparable and, if a significant item in a comparable property is inferior to, or less favorable than the subject property, I have made a positive adjustment to increase the adjusted sales price of the comparable.
2. I have taken into consideration the factors that have an impact on value in my development of the estimate of market value in the appraisal report. I have not knowingly withheld any significant information from the appraisal report and I believe, to the best of my knowledge, that all statements and information in the appraisal report are true and correct.
3. I stated in the appraisal report only my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the contingent and limiting conditions specified in this form.
4. I have no present or prospective interest in the property that is the subject to this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or the estimate of market value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property.
5. I have no present or contemplated future interest in the subject property, and neither my current or future employment nor my compensation for performing this appraisal is contingent on the appraised value of the property.
6. I was not required to report a predetermined value or direction in value that favors the cause of the client or any related party, the amount of the value estimate, the attainment of a specific result, or the occurrence of a subsequent event in order to receive my compensation and/or employment for performing the appraisal. I did not base the appraisal report on a requested minimum valuation, a specific valuation, or the need to approve a specific mortgage loan.
7. I performed this appraisal in conformity with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place as of the effective date of this appraisal, with the exception of the departure provision of those Standards, which does not apply. I acknowledge that an estimate of a reasonable time for exposure in the open market is a condition in the definition of market value and the estimate I developed is consistent with the marketing time noted in the neighborhood section of this report, unless I have otherwise stated in the reconciliation section.
8. I have personally inspected the interior and exterior areas of the subject property and the exterior of all properties listed as comparables in the appraisal report. I further certify that I have noted any apparent or known adverse conditions in the subject improvements, on the subject site, or on any site within the immediate vicinity of the subject property of which I am aware and have made adjustments for these adverse conditions in my analysis of the property value to the extent that I had market evidence to support them. I have also commented about the effect of the adverse conditions on the marketability of the subject property.
9. I personally prepared all conclusions and opinions about the real estate that were set forth in the appraisal report. If I relied on significant professional assistance from any individual or individuals in the performance of the appraisal or the preparation of the appraisal report, I have named such individual(s) and disclosed the specific tasks performed by them in the reconciliation section of this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in the report; therefore, if an unauthorized change is made to the appraisal report, I will take no responsibility for it.

SUPERVISORY APPRAISER'S CERTIFICATION: If a supervisory appraiser signed the appraisal report, he or she certifies and agrees that: I directly supervise the appraiser who prepared the appraisal report, have reviewed the appraisal report, agree with the statements and conclusions of the appraiser, agree to be bound by the appraiser's certifications numbered 4 through 7 above, and am taking full responsibility for the appraisal and the appraisal report.
