Vision Position

- Social Justice Director

Although the District Attorney's Office in its recruitment efforts, training, and office policies has worked diligently to educate its staff on how to approach decision-making within the criminal justice system, the District Attorney's Office acknowledges that it currently has no staff member or employee whose primary role is the deep and constant analysis and implementation of progressive prosecution practices.

Therefore, the creation of a Social Justice Director within the District Attorney's Office would help address the gap between intentions and actions on an ongoing basis. The vision for this position involves the incumbent serving in a leadership role on the management team.
