Department:	Waste and Renewables
Program:	Solid Waste

Motion:
(revenue/expenditure/text effect)

Increase expenditures in the Solid Waste fund by \$10,000 to allow for a grant program to assist in the establishment of yard waste compost sites by non-profits and municipalities in Dane County.

FTE Effect:	-		
Line Item Detail:			
Org	Object	DESCRIPTION:	Amount
SWADMPRJ	NEW	COMPOST SITE ASSISTANCE	\$10,000

Intent/Justification

These funds will be used to assist municipalities and non-profits with initial costs needed to start a compost drop-off location. There is a need in the community to create these drop-off areas since the Department no longer offers compost drop-off at the landfill site. These drop-off areas will further the County's waste reduction efforts, and they will help prevent leaves from getting into area lakes and waterways.

2022 CAPITAL BUDGET AMENDMENT**

Amendment # PWT-O-5	
Sponsor:	Supervisor Downing
Oversight Committee Action:	Public Works and Transportation
Personnel & Finance Action:	
Department:	Highway and Transportation
Program:	CTH Construction

Motion:
(revenue/expenditure/text effect)

Neither expenditures nor revenues be changed and the following provision be included in 2021 RES-191 2022 Dane County Operating Budget Appropriations Resolution:

"Given deteriorating road conditions, \$42,000 of highway maintenance funds included in Highway Operating Maintenance expenditures be dedicated in 2022 to pavement repair & minor resurfacing on Cty G between Mt. Vernon & Cty A."

Line Item Detail:			
Org	Object	DESCRIPTION:	Amount

Intent/Justification

The PASER scale is a 1-10 rating system for road pavement condition developed by the University of Wisconsin-Madison Transportation Information Center. PASER uses visual inspection to evaluate pavement surface conditions. When assessed correctly, PASER ratings provide a basis for comparing the quality of roadway segments.

The paser rating on CTH G was lowered from 6 to 5 during the 2021 spring road tour. During 2021, the Highway and Transportation Department wedged a small section of the road using Highway Operating Maintenance funds. This provision directs the Highway and Transportation Department to allocate funds from the same source to preserve equally deteriorated sections until the projected 2025 resurfacing.
