Subject: SUPPORT of item C-1 on Public Protection & Judiciary Committee Agenda 10/26/21

CAUTION: External Email - Beware of unknown links and attachments. Contact Helpdesk at 266-4440 if unsure

Hello. I am writing in support of Item C-1, RES-125: PFAS AND AIRPORT CONSTRUCTION PROJECTS <https://bit.ly/3ocUKfm> on your agenda.

This Resolution is an important step in addressing not only environmental pollution but racial and economic equity in our county. History and studies over the decades have more than shown that environmental pollution disproportionately affects areas affected by redlining and segregation. Leaving communities of color and low income communities feeling the impacts with lower financial equity in their property and homes, as well as effects on their health. Which includes higher rates of cancers, heart, birth abnormalities, and other diseases/disorders.

By passing this resolution, as written, we can start addressing these issues and stopping the cycles of harm happening to those living near the Dane county Airport, those affected by the noise pollution on the east side, and the greater Dane County community who will also benefit from reducing PFA's and environmental pollutants in general.

All of this to say, I encourage you to pass this Resolution, as originally written, today. Thank you for your time.

Sincerely,
Kierstin Huelsemann
