**Attachments:** [October 9th, 2016 Medical Advisory Minutes](#)

This Minutes was approved the minutes

#### C. Action Items

#### D. Discussion Items

## Goals and Priorities for 2017

*Dr. Lohmeier asked each MAS subcommittee member to come to the meeting with three goals for 2017. This led to excellent discussion of areas of interest. Areas included Community Medic (aka mobile integrated health), improved collaboration and sharing of training, risk analysis, increasing scope of practice to including additional skills/medications, improved communications, increased performance improvement measures utilizing data available to us. Dr. Lohmeier will work with staff to break all ideas into groups and assign members to focus on certain aspects to bring solutions/ideas back to MAS for full group discussion.*

## Communication Options for STEMI and Stroke

*Chris Carbon along with the hospital STEMI coordinators discussed an app called Pulsara. The app allows increased communication within the hospital during critical calls such as STEMI and Stroke. It also allows two way communication between EMS and the Emergency Department. The group discussed pro's and con's and agreed to research more and share with the EMS Association and then continue discussion at the next MAS meeting.*

## E. Reports to Committee

## F. Future Meeting Items and Dates

## G. Public Comment on Items not on the Agenda

## H. Such Other Business as Allowed by Law

## I. Adjourn

**This was adjourned**
