Absent 4 - PAUL HICK, DAN WILLIAMS, GRAHAM ADSIT, and JEFF POTHOF

B. Consideration of Minutes

2017 MIN-099

Attachments: May MAS minutes

This Minutes was approved the minutes

C. Workgroup Items

Workgroups will work on priorities for report out at July meeting

Workgroups broke out and worked on their priorities:

System Health: Sepsis Protocol - work to develop a protocol, signs/symptoms, what does early sepsis look like? treatment? What would denote a sepsis alert for hospitals. Lohmeier and Carbon will continue working on this. Pediatric Airway and Ketamine data, look at number of times, consequences of use, pull reports and have the workgroup analyze the data for discussion

Education/Training: Shared training, it would be nice to share guest speaker continuing education that is done at an agency. concerns include agencies waiting for another to do their training, making sure each agency is contributing, filming (hardware/software), finances available for this? who would house the videos - DCEMS website? calendar of trainings available for in person opportunities would also be helpful. Medication scope was also discussed, would need to take it to State EMS Board and State Physician Advisory committee. Nitrous oxide would be one looking for discussion.

Community Engagment: reimbursement? (hospital based vs. Medicare/medicaid), information sharing - (ie. EPIC) service level and servic are. The group will look at current proposed curriculum to see if it meets the current pilot scope.

Information Sharing: The group discussed different levels of information sharing - "emergent" create a phone list of leadership that could get a mass text message sharing information urgent in nature (ie. issue at an ED) a less emergent level of communication where a couple point people recieve the message and share it. Lastly, we discussed how to better communicate with our public safety partners - Fire and Police. We also discussed outcome sharing and St. Mary's is working on a pilot with an agency to see how beneficial this consistent info would be.

D. Action Items

Recommendations for EMS Provider Personal Protective Equipment

Dr. Lohmeier presented a memo addressed to EMS to discuss the use of PPE for any overdose situations. The recommendation would include eye protection, nitrile gloves and N95 mask. The group discussed the additional concern of all public safety and the ability to law enforcment to adhere to this recommendation. The next step will be to share this position with Madison/Dane County Public Health and partner with them to assist with messaging.

- E. Reports to Committee
- F. Future Meeting Items and Dates
- G. Public Comment on Items not on the Agenda
- H. Such Other Business as Allowed by Law
- I. Adjourn
