#### C. Action Items

##### Protocol Revision Updates

*Dr. Mancera reviewed some of the protocols being added and revised by the Protocol Workgroup. The workgroup is meeting weekly and has made much progress. Some protocols looking for input include - Nitrous Oxide, Wound Packing, Removal of Morphine, TXA, Sepsis Alert and Dual Synchronized Defibrillation.*

#### D. Presentations

## Imagetrend and Kno2 presentation

*Imagetrend discussed information sharing with the group. This would involve the Dane Elite System communicating thru Kno2 Data exchange to allow our EMS patient care records to become part of the EPIC chart. Similar to Care Anywhere. It can also allow automated or data driven outcomes to all EMS to know what the discharge diagnosis was for our patients. Thru this technology there is also the ability to query for patient information (similar to repeat patient). The group will discuss this technology at the next meeting. Imagetrend will also send Dane County the pricing structure for this type of addition.*
