Minutes - Final Unless Amended by Committee

Emergency Medical Services - Medical Advisory Subcommittee

Consider:

Who benefits? Who is burdened?

Who does not have a voice at the table?

How can policymakers mitigate unintended consequences?

D. Presentations

E. Reports to Committee

Mel began with recapping what was talked about last meeting. Mel stated that most of the meeting time was spent on the "shared training" category. As a group we discussed the need to review 12-lead trainings online for basic services, as well as, the need of labeling these trainings for the level of provider they are intended. In this discussion Linda brought up that there may be some "I.T." problems with these trainings being compatible on both PC and MAC. Mel would like to survey the training coordinators of each service to try and get a schedule of what trainings everyone is doing. Mel would like the workgroup to go through and review all the online trainings. As a group we discussed when EMT's should be calling medical control on no transports. We would like to review the protocol and see if it can be improved. We also discussed getting the physician's thoughts on when they would like to be called. Mel would like to find out what scenario's Doctor Ryan Thompson has been using. We then reviewed what we had talked about in this meeting. All workgroups reconvened and reviewed the topics of discussion in their workgroups and 6 month and 1 year goals.
