C. Action Items

Approval of Education Presentation and Newsletter

Lohmeier requested approval to compile an October newsletter to address the needs of decontamination when fuels are involved. The subcommittee was in agreement. A small group of members reviewed the submersion training video and gave approval for distribution

Workgroup Breakouts

The original plan was to break out into workgroups. The chair decided with three presenters the entire committee could benefit from the information.

First presentation was with Mike Travis who demonstrated a Learning Management System. The group had many questions but overall felt this would be a beneficial investment for agencies to utilize. Meier will follow up with the EMS Association and move forward.

Rob Kunze gave an update on the critical stress team. The team had a strong role in the Sun Prairie situation and were well recieved by all providers. Rob shared the website that they are building firstrespondwell.org and the committee reviewed this. Rob asked for assistance from the hospitals in the area of pediatrics to include responders, families and caregivers(daycare). Also request for assistance from a prevention standpoint in regards to nutrition.

Deputy Todd Doshier shared information regarding trafficking here in Dane County. We discussed the role of EMS and hospitals and discussed possible next steps. We plan to work on training materials, a one sheet education/guidance piece for the protocol book and the hospitals plan to discuss adding a message in their discharge summaries thru EPIC for certain admissions.
