

Dane County

Minutes - Final Unless Amended by Committee

Emergency Medical Services - Medical Advisory Subcommittee

Consider:

Who benefits? Who is burdened?

Who does not have a voice at the table?

How can policymakers mitigate unintended consequences?

Monday, November 12, 2018

12:00 PM Madison Fire Station #12 - 400 South Point Rd Verona

Madison Fire Station #12 - 400 South Point Rd Verona

B. Consideration of Minutes

[2018](#) October MAS Minutes

[MIN-327](#)

Attachments: [October MAS minutes](#)

C. Discussion Items

Infection Control Book and Training

Meier reported that Dr. Lohmeier is finishing up the Infection control manual and would like to pull partners together from all the hospitals to assure consistency and agreement. Meier also shared that an updated Infection Control Powerpoint was developed with the assistance of Madison Dane County Public Health and Dr. Gussick. This will be recorded soon and distributed.

UW Physician Response Vehicle

The memo sent earlier this month by UW Health was discussed and discussion ensued. The highlights of the discussion were that this should be considered another resource. It does not replace Medflight or ALS. UW Health vehicle is now available 24 hours a day 7 days a week. The SSM vehicle has varying hours. Both can be requested thru the Dane County 911 Center. They do not plan to show up at a scene unless requested. If they happen to be driving by, they may stop and ask if help is needed but will always check in first and not take over. They do not carry any medications or blood. They have a procedure kit similar to medflight. No billing will be incurred by the EMS Agency or the patient. Meier will work on a newsletter for December to share more of this info.

First Responder Well Website - Fitchburg Fire

Chief Pulvemacher was present and discussed the work Fitchburg Fire is doing with the first responder well program. The website can be shared with others firstresponderwell.org.

Out of Hospital Cardiac Arrest Transportation Destination Protocol Discussion

Meier reported that the UW/Meriter partnership is discussing the policy of sending any OHCA patient that achieves ROSC in the field that has an initial rhythm that is shockable to UW since they have cath lab capabilities 24/7. Meier shared her concern that this messaging be handled to limit confusion with transport to SSM St. Mary's also since they have 24/7 cath lab capabilities. After much discussion MAS felt that we should wait to see the message crafted by UW Health and then work with our protocols to assure understanding.

D. Presentations

E. Reports to Committee

F. Future Meeting Items and Dates

G. Public Comment on Items not on the Agenda

Dr. Pearlman shared an opportunity with teleflex to work on IO training utilizing cadavers. This training is available at no charge in the Milwaukee area. If anyone would like more information they can contact the EMS office.
