C. Presentations

1. F-35 Proposal and Its Potential Impact on Housing – Jesse Pycha-Holst (Solidarity Realty), Michelle Drea (City of Madison Assessor's Office), Alder Rebecca Kemble

Jesse Pycha-Holst provided an overview of the F-35 proposal and the draft Environmental Impact Statement released in August, including potential health, economic, and livability impacts for the affected area and extent of mitigation assistance that may be available. He emphasized that low-income and people of colors are disproportionately impacted.

Michelle Drea explained the property value assessment process including reasons why the Assessor's Office cannot proactively assess property value impacts. She shared her research on other communities where F-35s were placed or were proposed to be placed.

Alder Rebecca Kemble and other community leaders recently visited Burlington, Vermont, to learn about the community's experience with F-35 jets. She could not attend the Committee meeting but shared a message which was read to the committee. She pointed out over 200 residences in the 65 dB noise contour will not be eligible for federal mitigation assistance among other health and economic impacts.

Presenters answered questions from the Committee regarding existing data, potential impacts, and potential mitigation strategies.
