Minutes - Final Unless Amended by Committee

Land Information Council

Consider:

Who benefits? Who is burdened?

Who does not have a voice at the table?

How can policymakers mitigate unintended consequences?

C. Action Items

D. Presentations**E. Reports to Committee**

1. 2021 Land Information Plan Update - lausly

lausly had provided documentation earlier to the members and interested parties reference this item. This documentation outlined the timelines and peer review formats with the Plan finalizing at the end of December 2021. Note was made to advise the County Board of this Plan.

2. Preparing for Next Gen 911 - lausly

lausly explained how this is initiative related to the Land Information Plan as there will be fundamental changes to how calls enter the 9011 system. A State routing system which relies on a robust GIS base will route calls to the appropriate agency. With the interconnectedness of the many departments entering and editing data for Next Gen 911, preparing requires a higher reliance that those influencing parties create accurate information. Those influencing parties to create accurate data, with potential time constraints. This program provides an opportunity to improve our workflow. Mid June was date given for new State System.

3. 2022 Budget Planning - Mueller

As of this date the Exec has not made budget recommendations for 2022. Mueller presented the LIO Budget documentation. This demonstrated a stronger 2021 than expected, solely a result of the Register of Deeds document recording numbers. The prospective for 2022 is also positive although strong emphasis was expressed that the LIO budget not commit to funding a Planning & Development position as in the past, as the LIO funds are contingent on the Register of Deeds recordings which are not predictable. Instead the LIO could enter into projects and secure a project position.

4. Daniel's Law and the Impact of Privacy Redaction - Chlebowski

Chlebowski introduced inevitable legislation entitled Daniel's Law which is expected to pass this year. This legislation would allow for judges, and potential other groups, to request their names and addresses be shielded from records. This would include property records, tax records, GIS, Vital records, Motor vehicle records and voter rolls. Chlebowski strongly encouraged members to think of the impact of this law(s) and prepare, better to be in front of this than reactive.
