

Dane County

Department Details

Department name: Alliant Energy Center Redevelopment Committee

Type: Boards and Commissions

Meeting time:

Meeting location:

Primary contact:

Description: The Dane County Board of Supervisors approved 2018 RES-498 "Alliant Energy Center Redevelopment Committee" which, pursuant to the recently completed master plan, puts in place a committee to shepherd the next steps of this major county initiative. With \$30 million for this project included in Governor Evers proposed budget, it is critical that the county move forward to address financing and governance issues associated with campus redevelopment, as well as review public and private investment opportunities in the Alliant Energy Center.
