Thanks Chad,

At this time I don't need anything further. I haven't actually received an official variance application for the project yet, but when I do I will provide it to DCRA for any additional review or comment that may be needed, but I suspect it will be for what was already requested and the response you sent will suffice.

Hans

Good afternoon sir.

Just following up with you on this. As previously mentioned, the airport does not oppose the variance request. I am just checking to verify that you do not need anything further from the airport on this. Correct?
