1	SubTO 2025 RES-001 (PROPOSED-FRIES)
2	
3	
4	URGING THE WISCONSIN LEGISLATURE TO INITIATE A LEGISLATIVE COUNCIL STUDY
5	ON HOW TO IMPROVE YOUTH VOTING PARTICIPATION IN WISCONSIN
6	
7	The Dane County Board of Supervisors requests and strongly urges the Wisconsin State
8	Legislature to call for a Wisconsin Legislative Council study examining the participation of youth
9	voters in elections and providing policy recommendations for improving and potentially
10	expanding youth voting participation.
11	
12	It is well documented that voters between 18 and 29 years of age have consistently had the
13	lowest turnout among all age groups in U.S. presidential elections, and often even lower turnout
14	levels in local elections. Less than 20% of eligible voters voted in Wisconsin's spring primary
15	held on February 18, 2025. Civic engagement and voter turnout are key pillars of our
16	democracy and they are currently under threat on all governmental levels. We must make
17	efforts to reverse disenfranchisement that leads to erosion of democratic systems.
18	
19	More research is warranted to understand steps and initiatives that could motivate young voters
20	to take civic action. These initiatives might include engagement strategies focusing specifically
21	on youth, early education, community influence, social media, and technology, as well as state
22	and local policy changes and grassroots efforts that improve youth voter engagement and
23	access. To address specific issues already identified in Wisconsin, a Legislative Council study
24	should include but not be limited to research and recommendations on:
25	Liniversity of Missensis charges to the Missend to realize it Material Descendions
26	- University of Wisconsin changes to the Wiscard to make it Voter ID compliant
27	- Ensuring adequate and accessible campus polling locations are available
28	 Registration and residency requirements that act as barriers to youth voting Reducing voting age to include 10 and 17 year olds
29 30	 Reducing voting age to include 16-and 17-year-olds
30 31	The goal of this Legislative Council study would be to create a data-driven, comprehensive set
32	of recommendations for spurring civic engagement in the electoral process by current and next
33	generations of youth voters in Wisconsin.
34	
35	In recent years, scholars and policymakers have considered whether the U.S. minimum voting
36	age should be changed to 16 years of age and a growing body of research is showing that 16-
37	and 17-year-olds have the cognitive ability and reasoning on political issues to be able to make
38	their own political decisions. But changing the voting age is an approach that must be examined
39	within a larger context that explains lower participation rates among already currently-eligible
40	youth voters. A Legislative Council study focused on this topic would send the message that
41	youth have a place in politics and a civic right and duty that should start early and endure
42	throughout their lives.
43	
44	Positive habits started in the earlier adolescent years have a better chance of extending into
45	adulthood. Research shows voting in one election can increase the probability that a person will
46	vote in the next election. Enacting policy changes and initiatives shown to improve youth voter
47	access and engagement would bolster routine democratic participation.
48	
49	NOW, THEREFORE, BE IT RESOLVED that the Dane County Board of Supervisors requests
50	and strongly urges the Wisconsin Legislature to initiate a Legislative Council study on how to
51	improve youth voting participation in Wisconsin, which researches, among other things, making

- 52 changes to the University of Wisconsin Wiscard to make it Voter ID compliant, provision of
- adequate and accessible campus polling locations, registration and residency requirements that
- act as barriers to youth voting, and reducing voting age to include 16-and 17-year-olds.
- 55
- 56 BE IT FURTHER RESOLVED that the Dane County Board encourages other local governments
- 57 to support and request a Legislative Council study to advance youth voter engagement.
- 58
- 59 BE IT FINALLY RESOLVED that a copy of this resolution be sent to Governor Tony Evers and
- 60 the Dane County State Legislative Delegation.
