I have been resident of Rutland for 20 years. I suffer from high Anxiety this quarry has never bothered me. I live less than a mile away. I think that a resident that lives 3 miles away and says that this quarry impacts her in a negative way is an untrue Statement.

I have been a resident of this township for 21 years and live less than a mile away. I listened on Zoom a few months ago and Mr. Everson stated this quarry was in compliance. I understand that they were correcting a couple issues, this was done in a timely manner. I do not understand how it went from being in compliance to this.

We have purchased multiple loads of recycled asphalt from K&D Stone for our driveway. They were great to work with. We had placed our original order & found we ^{had misjudged amount needed} were short so needed to call and order an additional load. They said no problem and sent it out right away. The driver was very professional and did a wonderful job of spreading each load. We would recommend them to anyone needing materials.

I am in support of K&D Stone business to stay open. They are available in our township when material is needed and they are in a very convenient location for businesses to get material that they need on their job sites. K&D's material was used on the ground work of the new town hall right down the road. The speed limit has been changed by their pit and people are abiding by that. I've gone by there several times and never see any issues. The berm they have built has blocked anyone seeing their pit materials from the road. Without this pit remaining open this would affect not only Rutland township but also other businesses who haul material out of this pit cause they are close to their job sites. This is a small company and they've done what they need to do to remain open. Without this pit open there would be several jobs lost. These employees have homes and families they need to provide for.

Should Not be shut down by losing their permit.

I live near the Madison Int'l. Speedway. It's loud - 2 day/week.
I live with it and accept the fact that Angie & Greg, who
own the track, have the right to run their business. I bought
this property knowing of the noise and made that choice.
I have had a few interactions with K&D and they went
out of their way to answer questions, let me know what I
needed, and saved me money. They are a great business
and I'm glad ~~for~~ they're so close.

SEE ATTACHED LETTER!

To Whom It May Concern,

I am writing to provide a statement of support regarding an incident that occurred last summer involving three loads of material that were found to contain non-conforming debris at the quarry.

Upon discovery of the issue, another employee and I promptly took responsibility for addressing the situation. We ensured that all non-compliant material was removed from the quarry area without delay. The debris was carefully collected, loaded into our dump truck, and transported directly to the landfill for proper disposal.

Since that time, there have been no further incidents of this nature. The issue was resolved quickly and efficiently, and steps have been taken to ensure that similar problems do not occur again.

Please feel free to reach out if any further details are needed.

Sincerely,

Ben Amara

Former K&D Stone Employee

To: The Land and Zoning Board
Dane County

Subject: Letter of Support for K&D Stone Quarry Operations

Dear Members of the Land and Zoning Board,

I am writing to express my full support for the continued operation of the Hahn family-owned quarry located in our community. I have known the Hahn family personally for many years, and I can attest to their integrity, strong work ethic, and unwavering commitment to responsible business practices.

The quarry has been an essential part of our local economy, providing jobs, resources, and support for numerous community projects. The Hahn family operates with great care for both the land and their neighbors. They've consistently demonstrated a willingness to follow regulations, communicate transparently, and reinvest in the community.

It is disheartening to hear that they have been subjected to bullying and harassment, especially when they have done so much good. No family or business—particularly one that has contributed so much to the local economy and community—deserves to be treated unfairly or intimidated.

I respectfully urge the board to recognize the positive impact this operation has on our area and to support their right to continue working their land responsibly. We need more businesses like this—ones that are rooted in family, community values, and respect for the environment.

Thank you for your time and consideration.

Sincerely,
Kadynce Strate

The company I work for has maintained a longstanding and productive working relationship with this quarry, and their role is critical to our daily operations. The materials they provide are not only of consistent high quality, but their proximity and reliability allow us to manage cost, timelines, and logistics in a way that would not be possible otherwise. The closure of this quarry would have significant negative impacts on the construction and agricultural industries throughout Dane County.

this location has been a gravel pit for a number of years. It has & is operating within the proper guidelines. the claims against the gravel pit are petty & inconsequential. the County should not be allowed to rule against the gravel pit because of a few unhappy neighbors.

I support K and D stone remaining open due to the fact it means better materials closer to home with less transport cost to get material to the general public. Which also means potential employment for people in and around the Rutland community. We need to support the employees of the quarry who rely on it to put food on the table and clothes on their backs. As well as giving them access to a brighter financially secure future. Thanks Jacob Braten.

K&D should be able to keep permit. They have gone above & beyond addressing any community complaint. It's too bad the county roads changed to class B which limits their routes. It would be a shame to lose another family business.

Surface mining and excavation is a necessity in all prosperous communities. It is imperative to have good safe roadways, as well as all the importance of the different products K;D Store produces for its customers. By shutting down this business, the idea of the American dream, is in jeopardy. It is very sad, that it has gotten to a point where these thoughts need to be vocalized, as these people (Kevin; Devin) are fighting to keep their business alive in a country where finding people to work jobs in general is tough. This goes to show how they run their business as they have employees and good help. This speaks volumes about their success in running their business. I fully support and stand by the continuing work and success of K;D Store.

I am writing to oppose the removal of the quarry permit under consideration. As a regulator with the state of WI for the past 10 yrs, I understand the importance of consistent application of standards across all facilities under regulatory oversight. Effective regulation requires us to remain objective and ensure that bias does not influence our inspections or decisions. When standards are not being met, the appropriate response is education and gradual compliance measures that allow businesses to correct issues without forcing them to cease operations.

I have been a resident of the Town of Rutland for 15 years and my home is located 4 mi from the quarry. In all this time, the quarry operations have never negatively impacted my life in any way.

While I recognize that regulators must investigate public complaints, we must ensure that any enforcement actions taken are proportional and justified by actual violations or harm. I urge you not to allow a small group of individuals w/ personal grievances against this small business to drive the outcome of this important decision.

I respectfully ask that you maintain the quarry's permit and continue to work with the operator through appropriate regulatory channels if any legitimate concerns arise.

Thanks for your consideration,

Kate

We Rely on pits like K&D! I just don't understand why a few people that aren't 'Country families' can cause so many issues with a company that is just doing their jobs & supplies product we all need one time or another. We are a pool company that needs quarries like this. It's getting tough to locate pits these days & we build pools all over the place & use K&D when

Building pools in the area. If its traffic - so what! As long as trucks are working 6am-7pm or so that should NOT be an issue.

Keep the Quarry Open please!

Why is this happening? These people are trying to make a living supplying materials for homes - roads - landscapers plus. They are hurting No one. If its traffic - people need to deal with it or move. They were here before most of us. A few people in our township that are causing K&D to spend all this money to close them down is unbelievable, not to mention their employees that are effected by this. A few should not make the rules. We have a pit a couple miles from our place and it's no big deal. People are making a living. I use to live on Old Stone Rd - not far from the pit & it was never an issue back then.

This quarry has been here for many years. There is no reason people who move here want to change things to be how it is where they came from. before they moved here it should have been checked out to see if it was what they wanted. They have complied with all the endless complaints and I'm betting this quarry assisted with gravel etc for their new homes.

I own Recreational Concepts & very upset that people want the pit closed. We purchase a lot of materials from them. Just because people are home or retired & see the trucks it's NOT a reason to close a business down that's been there for years. It's a clean, well priced quarry w/ great employees. They are hurting No one.

Public complaints against this operator have become a spectacle in our township, fueled by the ambition of a select group of individuals. This should be strongly considered when evaluating the 'complaints' as I don't believe they represent the perspectives of our township in large.

The benefits of continuing to work with the Operator in any areas of concern vastly outweigh any of the complaints or concerns, of which I understand they've been very responsive to address.

I have no complaints against the business or their operations. The few drivers this Quarry employs are respectful, kind individuals who I met when we purchased fill during our barn construction project many years ago. The barn now houses sheep and poultry exhibited by my children in 4-H. Having access to the building materials locally made it possible to have the flexibility in obtaining the correct type and amount of fill to support our small operation. The township benefits from this operator in so many ways.

I'm in support of CUP 2582 remaining intact and do NOT want to see it revoked.

In reviewing the documents posted, I noticed two complaint emails from the same individual—who lives over three miles away—along with photos of alleged violations. The repeated monitoring of this business by someone not in the immediate area raises concerns about fairness, and even the appearance of harassment or stalking. It's important that concerns be addressed through open dialogue with the owner or the town board before escalating to the county which it appears may not have happened. This neighbor continues to do everything in their power to create obstacles for this new business.

Every new business, including a quarry, naturally goes through an adjustment period with both challenges and opportunities for improvement. It's normal for some details to take time to work through as processes are refined. As a community, we should approach concerns with patience, constructive feedback, and a willingness to work together to find solutions locally whenever possible. I appreciate the county's efforts thus far to work with the Hahn's on rectifying their issues to assure they are in compliance of their CUP.

K&D Stone has shown a commitment to our community, making meaningful contributions—such as providing services to it's neighbors as what I would consider EXTREMELY reasonable prices, and helping reduce costs during the new town hall project. Their actions demonstrate a desire to be a good neighbor and a long-term partner in our town's success.

I request the county scrutinize the complaints it receives, as a select group are purposefully watching and doing everything in their power, to make K&D fail.

Let's focus on constructive dialogue, fair consideration, and supporting our neighbors as they work through early challenges. Keeping the CUP in place will give K&D Stone the opportunity to continue improving, providing a valuable service, while remaining a valuable part of our community and the county.

Please use the space below to provide a brief summary of your comments and/or concerns regarding the proposal.

I'm AGAINST CUP 2582 being revoked and would like to see the CUP kept INTACT.

I support this small quarry in our township trying to provide a service and hate to see the bullies in this township who are harrassing this small business owner. It appears complaints are coming from one specific person who doesn't even live next to the quarry and just drives around taking pictures. The county should please take into consideration WHO is making complaints as they are repeatedly coming from the same people over and over.
