PARC & Ride Grant Program Overview

The PARC & Ride Grant Program provides matching funds to develop new regional bicycle playgrounds or regional bicycle/pedestrian trails that are identified in the Dane County Parks and Open Space Plan or Bike Dane Initiative. The standard grant amount will be up to 50% of the project costs.

To apply to the PARC & Ride Program, an organization should be one of the following:

- Town, village, or city in Dane County
- 501(c)3 non-profit organization
- Other governmental unit in Dane County (school district, university, MPO, tribal government)

Grants will be awarded for the development of off-street shared-use trails including amenities and support facilities, such as trailheads/parking areas, signage, and safety facilities. The grants will also be awarded for the development of regional bicycle playgrounds. A bicycle playground is designed with features to offer a variety of fun obstacles that safely build cycling confidence for kids.

Trail projects funded through the program must adhere to the Dane County Parks regional trail standards for limestone trails, paved trails, boardwalk, and bridges.

This grant program is offered every other year, pending Dane County Budget funding.

PARC & Ride Grant Program History

- The Partners for Recreation and Conservation (PARC) program was established in 2011 with an initial funding level of \$1,000,000.
- The concept was for Dane County to support regionally significant conservation and recreation projects that were ready to go but needed funding support for construction.
- During these years, staff would initially evaluate projects and make recommendations to the Park Commission. Park Commission members were invited to the evaluation sessions.
- Applicants would present their projects to Park Commission (similar to Conservation Fund Grants) and the Park Commission would then make a final funding recommendation to the County Board.
- Starting in 2016, the program was rebranded as PARC & Ride with a focus on regional bike projects only. This shift was in response to a growing recognition that municipalities were struggling to implement the regional bicycle network.
- As the program changed over time, staff initially evaluated projects and made recommendations to the Park Commission through a presentation before the grant award resolution was introduced.

2021 Application Cycle Timeline

- Application cycle opened in February 2021 and the application deadline was June 1, 2021.
- Grant award resolution was introduced in August 2021.
- A second grant award resolution was introduced in July 2022. These projects were submitted through the 2021 grant application cycle and funds were appropriated in the 2022 County Budget.

2023 Application Cycle Timeline

- The last application cycle opened in July 2023 and the application deadline was September 15, 2023.
- Only two applications were received and both met the program requirements.
- Grant award resolution was introduced in January 2024.

Friends Grant Program Overview

There are two opportunities for grant funding to Dane County Parks Friends Groups and other partner organizations:

- Capital Grant
- Foundation for Dane County Parks Collaborative Grant

Capital Grant

The Friends Capital Grant Program provides matching funds to develop capital projects on county parkland. The projects must be consistent with the Dane County Parks and Open Space Plan, park master plan, and/or park work plan. Typically, they are not priority projects for Dane County Parks, but they are for the Friends Group or partner organization. The Capital Grants will fund up to 75% of the total project costs and can range from \$2,000 - \$18,750.

To apply for a Friends Capital Grant, an entity must:

- Have current 501(c)3 non-profit status
- Have current Commercial General Liability insurance at a limit of not less than \$1,000,000 per occurrence
- Have the capacity to implement the project on their own, including securing permits (if required)
- Close any previously awarded Friends Capital Improvement Grants before another application is accepted

Grants will be awarded for capital projects such as trail construction, new habitat restoration (not maintenance of an existing restored area), tree planting, mobile storage structures, and interpretive signage.

Applications are accepted throughout the year and grants are awarded on a rolling basis as long as funding is available. This grant programs are offered every year, pending Dane County Budget funding.

The Friends Capital Grant Program was created in the 2020 Dane County Budget and provides matching funds to Friends groups and other nonprofit organizations to implement capital improvements on Dane County parkland.

Foundation for Dane County Parks Collaborative Grant

Grants will be awarded for to lead educational programs, implement small projects, and purchase equipment for volunteer workdays. This collaborative grant program can fund a full or partial project/program between \$250-\$2,000.

To apply for a Collaborative Grant, an entity must:

- A current 501(c)3 status is not required
- Not be a private, for-profit business
- Have the capacity to manage and implement the project/program on their own
- Close (final report submitted) previously awarded Collaborative Grants before another application is accepted

Grants will be awarded for projects or programs that occur on county parkland. Such as public educational programming, tools and equipment to be used for volunteer workdays, or creation or printing of organizational materials, such as membership brochures.

This grant programs is offered every year. Applications are currently being accepted and the application deadline is April 1, 2024.

Foundation for Dane County Parks Collaborative Grant Program History

- The Foundation for Dane County Parks has raised more than \$800,000 establishing a Friends of Dane County Parks endowment fund (managed by the Madison Community Foundation) to support Dane County Parks' mission.
- Beginning in 2019, funds from the endowment distribution have been awarded to Friend Groups and other partner organizations to enhance Dane County Parks through volunteerism, education, and interpretation.
- During the early years, the Foundation for Dane County Parks managed the grant program, with the assistance of Dane County Parks Staff.
- In the summer of 2022, the Dane County Environmental Council was sunset. In the 2023 Dane County Operating Budget the \$6,000 annual Environmental Council's Community Partners grant program funding was transferred from UW-Extension to Dane County Parks.
- In the spring of 2023, Dane County Parks used this funding to set-up a mini-grant program. Grant requests exceeded the funding available, and the Foundation for Dane County Parks and the Friends of Dane County Parks endowment fund covered the deficit to award all grants in full.
- In the fall of 2023, the Foundation for Dane County Parks and Dane County Parks combined available funds to offer a collaborative annual grant program for Friend Groups and partner organizations.
