SYSTEM RESOURCE STRAIN

INCREASED WORKLOAD FOR COURT STAFF

LONGER PROCEEDINGS & COURT DELAYS

DRAIN ON JUDICIAL RESOURCES

CHALLENGES: GENERATIVE AI & THE COURT SYSTEM

INCREASED CASE & EVIDENCE VOLUME

- **AI-Generated Filings:** Easy creation of voluminous complaints, briefs, and discovery requests.
- **Automated High-Volume Litigation** (e.g., debt collection, small claims).
- **Strains Court Resources:** Increased processing time and administrative burden.

HARD-TO-DECIPHER ERRORS & FALSE INFORMATION

- **AI Hallucinations:** Fake citations, legal precedents, and fabricated facts.
- **Sophisticated Misinformation:** Errors that look plausible and are difficult to detect quickly.
- **Risks to Procedural Fairness:** Unreliable evidence impacting case outcomes.

AUTHENTICITY & VERIFICATION CHALLENGES

- **Deepfakes and Manipulation:** Difficulty distinguishing AI-generated audio, video, and images presented as evidence.
- **Increased Authentication Burden:** Need for new protocols and forensic expertise to verify digital content.
- **Erosion of Trust:** Maintaining confidence in the reliability of courtroom exhibits.

ALGORITHMIC BIAS & ETHICAL CONCERNS

- **Perpetuating Bias:** Potential for AI tools trained on flawed data to influence judicial decisions (if implemented).
- **Attorney Competence:** Ethical duty for lawyers to understand the tools they use and supervise AI output.
- **Maintaining Public Trust:** Balancing technological efficiency with impartiality and accountability.

COURTHOUSE SAFETY

A wooden gavel with a brass band is positioned diagonally across the upper right portion of the image. It rests on a pile of US dollar bills, including several \$100 bills featuring Benjamin Franklin. The bills are scattered and overlapping, with various serial numbers and text visible. The lighting is soft, highlighting the textures of the wood, metal, and paper.
