To Whom It May Concern,

This letter serves as formal confirmation that **TriMed Solutions** is uniquely qualified to provide the equipment, installation, service, and technical support required for the dental operatory being considered by the Dane County Sheriff's Office.

TriMed Solutions specializes exclusively in equipment service and maintenance for medical, dental, and veterinary clinical environments. Our technicians are trained and experienced in servicing complex clinical equipment including, but not limited to:

- Sterilization systems and autoclaves
- Exam and treatment chairs
- Procedure lighting systems
- Diagnostic and clinical support equipment
- Mechanical and electrical equipment integrated into clinical operatory environments

TriMed Solutions maintains specialized training, technical documentation access, parts sourcing relationships, and service history specific to these systems. Due to the proprietary nature of certain components, system configurations, and prior installation/service work performed, continuity of service is critical to maintaining manufacturer compliance, operational safety, and regulatory standards.

At this time, TriMed Solutions is not aware of any other vendor within a reasonable geographic service area that possesses documented familiarity with the equipment systems requested or established access to necessary OEM parts and technical resources. Because of these factors, TriMed Solutions qualifies as a sole source provider for the specified equipment service and maintenance needs.

We certify that the information contained in this statement is accurate to the best of our knowledge. Should additional documentation be required to support procurement review, we are prepared to provide further clarification.

Sincerely,

Dick Johnson
