Dane County Board of Adjustment  
City County Building, Room 116  
210 Martin Luther King Jr. Blvd.  
Madison, WI 53703

RE: Amended Blume & Sons, LLC's Application for Setback Variances at 946 Medina Road,  
Town of Medina, Dane County

Dear Chair Long and Board Members:

Please accept this narrative description of Blume & Sons, LLC's ("Blume") application for variance from the Building Setback requirements, articulated in Dane County Ordinances ("DCO") § 10.102(9), and the Outdoor Storage setback requirements, articulated in DCO § 10.004(117)(c), for its property located at 946 Medina Road, Town of Medina (the "Town"), Dane County (the "County"), Wisconsin, Tax Parcel Identification No. 0812-332-9830-6 (the "Property").

My client purchased the Property in November 2022. Prior to its purchase by Blume, the Property was used for a masonry business. Since its purchase, Blume has made considerable efforts to clean up the Property, which is in significantly improved condition.

The Property is zoned Heavy Commercial ("HC"), and outdoor storage is a permitted use in the HC District. DCO § 10.273. The Zoning Ordinance requires all outdoor storage to comply with building setback requirements, which in the case of the Property would be as follows:

- 100 feet from the centerline or 42 feet from the right-of-way line of State Highway 73;
  - For this variance application, 42 feet from the right-of-way line is the greater setback and therefore applicable.
- 63 feet from the centerline or 30 feet from the right-of-way line of Medina Road;
  - For this variance application, 63 feet from the centerline is the greater setback and therefore applicable.
- 10 feet from the western side yard lot line and the northern rear yard lot line.  
DCO §§ 10.102(9), 10.004(117)(c), 10.273(6).

My client proposes to use the Property for container storage. Blume has entered into a lease agreement with United Rentals, a company which prides itself on maintaining high quality, visually appealing container storage sites. The lease is contingent, however, on Blume obtaining the requested variances because the Property is not a viable site for outdoor container storage without them.

To make the Property viable for outdoor storage use, Blume asks the Board of Adjustment (the “Board”) to grant it variances from the State Highway 73 setback and Medina Road setback to create a uniform, 10-foot setback for the entire Property. My client’s Amended Variance Application is enclosed with this letter as Exhibit 1.

Blume has notified the Town Board of its intention to seek a variance for the Property for outdoor storage within the setbacks. The Town Clerk advised us that they would consult with Dane County following the submission of our application. A copy of this communication with the Town Clerk is attached hereto as Exhibit 2. The Town Plan Commission has since scheduled a meeting to discuss Blume’s variance application on September 24, 2024.

DCO § 10.101(10) governs applications for variance from the County’s Zoning Ordinance. Pursuant to § 10.101(10)(g), the Board shall not grant a variance unless it finds that all of the following standards are met:

1. There are conditions unique to the property of the applicant that do not apply generally to other properties in the district.
2. The variance is not contrary to the spirit, purpose, and intent of the regulations in the zoning district and is not contrary to the public interest.
3. For a variance from area, setback or dimensional standards in the ordinance, compliance with the strict letter of the ordinance would unreasonably prevent use of the property for a permitted purpose or would render compliance with the ordinance unnecessarily burdensome.
4. The alleged difficulty or hardship is created by the terms of the ordinance rather than by a person who has a present interest in the property.
5. The proposed variance shall not create substantial detriment to adjacent property.
6. The proposed variance shall be compatible with the character of the immediate neighborhood.

An analysis of Blume’s variance application demonstrates that each one of the variance criteria codified in DCO § 10.101(10)(g) are satisfied.

The Property is one of just seven properties in the Town zoned HC; therefore, it is one of a small number of properties in the Town where outdoor storage may occur. Further, of these HC-zoned properties, only three abut a State highway, requiring a 42-foot setback from the right-of-way. This setback requirement reduces the square footage on the Property available for outdoor storage by approximately 21,000 square feet, or .48 acres. Combined with the setback from Medina Road, the Property loses a total of approximately 27,800 square feet, or .64 acres, of outdoor storage area. Only one other HC-zoned property in the Town is impacted by both State highway and Town road setbacks, demonstrating that the County's zoning setbacks affect the Property especially and limit the available storage area on the Property uniquely.

The fact that the Property abuts a State highway and a Town road, which both require significantly increased setbacks from standard lot line setbacks, places an unreasonable burden on using the Property for the permitted use of outdoor storage. In addition to the enclosed site survey of the Property is a map provided by the Dane County Planning and Development staff, which shows the roadway setbacks applied to the Property and is labelled as Exhibit 3; however, it should be noted that the applicable setback from Medina Road is approximately six (6) feet beyond the 30-foot setback on the provided map. Nevertheless, the map, as is, shows the burden and hardship placed on Blume based on the location of the Property. This burden is not self-created; rather, this burden exists because the Property is adjacent to a State highway and Town road, which is unique—only one other HC-zoned property in the Town abuts both a State highway and Town road.

On the westside of State Highway 73, the Property is surrounded by HC-zoned properties, which is a higher intensity use, so granting the variances would not be out of character with the area. Furthermore, the prior masonry use of the Property involved significant outdoor storage, but not storage to which building setbacks applied per DCO §10.004(117)(c). Therefore, the proposed storage on the Property is not inconsistent with the established use of the Property, as demonstrated by the aerial photographs enclosed as Exhibit 4.

Similarly, granting these variances would not affect drivers on State Highway 73. Based on the location of State Highway 73 adjacent to the Property, the highway curves away, not toward, the Property, as shown on the enclosed site survey (Exhibit 1). Accordingly, outdoor storage within 10 feet of the right-of-way setback would not create any visual impairment for drivers.

If granted, the variance would not negatively affect the neighboring properties. Neighboring property owners are supportive of Blume's variance application and appreciative of its efforts to enhance the Property's appearance, as demonstrated by the letters of support enclosed as Exhibit 5. Accordingly, the variance, if granted, would not create a detriment to neighboring property owners and is in keeping with the prior use of the Property and the surrounding area, which includes adjacent HC-zoned properties. To the extent there are any negative effects on neighboring property owners, Blume and its tenant would mitigate them, as demonstrated by the fact that Blume has cared for and enhanced the Property since its purchase and United Rentals' established history of well-maintained outdoor storage lots. Attached as Exhibit 6 are photographs of container sites

operated by United Rentals, which demonstrate the care with which United Rentals maintains its storage sites.

In total, Blume requests a 32-foot variance from the setback requirement from State Highway 73 and a 26-foot variance from the setback requirement from Medina Road. My client requests these setback variances because they are necessary to use this uniquely located Property for outdoor storage, a permitted use for HC-zoned Properties. Without the variances, the storage area on the Property is greatly reduced, which significantly impacts its viability as an outdoor storage site. The variance would not change the established use of the Property because it was used for the outdoor storage of materials related to the masonry business. Rather, the variances would allow different materials, storage containers, to be located within the State highway and Town road setbacks. These variances are essential for Blume and its tenant to fully utilize the Property for outdoor storage, and Blume is not requesting a variance greater than necessary to ensure the Property is viable for a permitted use in the HC district.

Please do not hesitate to contact me to further discuss these matters.

Sincerely,

AXLEY BRYNELSON, LLP

Proposal: Outdoor storage

**NOTE: You are encouraged to provide a complete and detailed description of the existing use and your proposed project on an attached sheet.**

#### REQUIRED BY ORDINANCE

Section	Description	Required	Proposed or Actual	Variance Needed
10.102 (9)	42' setback from State Hwy ROW per §10.004 (117)	42'	10'	32'
10.102 (9)	~36' setback from Town Rd. ROW per §10.004 (117)	~36'	10'	26'

**PRESENTING YOUR CASE TO THE BOARD OF ADJUSTMENT:**

An Area Variance may be authorized by the Dane County Board of Adjustment to vary one or more of the dimensional or physical requirements of the applicable ordinance in connection with some proposed construction.

The burden will be on you, as property owner or authorized agent, to provide information upon which the board may base its decision. At the hearing, any party may appear in person or may be represented by an agent or attorney. You or your agent must convince the zoning board to make a ruling in your favor. The board must make its decision based only on the evidence submitted to it at the time of the hearing, including the staff report. Unless you or your agent is present, the board may not have sufficient evidence to rule in your favor and may then deny your application.

***Please answer the four questions below. You are encouraged to attach a separate sheet, labeling the answers (1) through (4), to provide enough detail to support your appeal:***

(1) Describe alternatives to your proposal such as other locations, designs and construction techniques. **Attach a site map showing alternatives you considered in each category below:**

(A) Alternatives you considered that comply with existing standards: If you find such an alternative, you can move forward with this option with a regular permit. If you reject compliant alternatives, provide the reasons you rejected them.

\_\_\_\_\_  
See attached letter & exhibits.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

(B) Alternatives you considered that require a lesser variance: If you reject such alternatives, provide the reasons you rejected them.

\_\_\_\_\_  
See attached letter & exhibits.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

(2) Will there be an unnecessary hardship to the property owner to strictly comply with the ordinance?

*Unnecessary hardship exists when compliance would unreasonably prevent the owner from using the property for a permitted purpose (leaving the property owner without any use that is permitted for the property) or would render conformity with such restrictions unnecessarily burdensome.*

*An applicant may not claim unnecessary hardship because of conditions which are self-imposed or created by a prior owner (for example, excavating a pond on a vacant lot and then arguing that there is no suitable location for a home or claiming that they need more outbuilding space than that permitted to store personal belongings). Courts have also determined that economic or financial hardship does not justify a variance. When determining whether unnecessary hardship exists, the property as a whole is considered rather than a portion of the parcel. The property owner bears the burden of proving unnecessary hardship.*

\_\_\_\_\_  
See attached letter & exhibits.  
\_\_\_\_\_  
\_\_\_\_\_

- (3) Do unique physical characteristics of your property prevent compliance with the ordinance? If yes, please explain. **The required Site Plan and/or Survey submitted with your application must show these features.**

*Unique physical limitations of the property such as steep slopes or wetlands that are not generally shared by other properties must prevent compliance with the ordinance requirements. The circumstances of an applicant (growing family, need for a larger garage, etc.) are not a factor in deciding variances. Nearby ordinance violations, prior variances, or lack of objections from neighbors do not provide a basis for granting a variance.*

---

See attached letter & exhibits.

---

- (4) What would be the effect on this property, the community or neighborhood, and the general public interest if the variance were granted? Describe how negative impacts would be mitigated. **The required Site Plan and/or Survey submitted with your application must show any proposed mitigation features.**

*These interests may be listed as objectives in the purpose statement of an ordinance and may include: Promoting and maintaining public health, safety and welfare; protecting fish and wildlife habitat; maintaining scenic beauty; minimizing property damages; ensuring provision of efficient public facilities and utilities; requiring eventual compliance for nonconforming uses, structures and lots; drainage; visual impact; fire safety and building code requirements; and any other public interest issues.*

---

See attached letter & exhibits.

---

#### **REQUIRED PLANS AND SPECIFICATIONS:**

In addition to providing the information required above, you must submit:

1. **Site Plan:** Complete and detailed plans of your lot or lots, drawn to a standard and easily readable scale. **In most cases, a survey by a Registered Land Surveyor is needed.** The Site Plan/Survey should include the following, as applicable, as well as any unique existing features of the lot and any proposed mitigation features, as described above:
  - Scale and North arrow
  - Road names and right-of-way widths
  - All lot dimensions
  - Existing buildings, wells, septic systems and physical features such as driveways, utility easements, sewer mains and the like, including neighboring properties and structures.
  - Proposed new construction, additions or structural alterations.
  - For property near lakes, rivers or streams:
    - Location of Ordinary High Water Mark (OHWM) Elevation
    - Location of Floodplain Elevation
  - For property near Wetlands, a Wetland Boundary determination by a qualified professional consultant may be required.
  - Topographic survey information may be desirable or necessary.
  - Setbacks from any existing or proposed structures (building) to lot lines, right-of-way lines, Ordinary High Water Mark, and/or Wetland Boundary, as applicable.
  - For setback from Ordinary High Water Mark Variance Appeals, the setbacks of the two neighboring structures from the OHWM may be required.

**2. Floor Plans and Elevations:** Professionally-prepared plans and elevations are not required, but the plans submitted must be drawn to a standard and easily readable scale, must show each story of the building or structure, and must include all parts of existing and proposed structures, including any balconies, porches, decks, stoops, fireplaces and chimneys. Exterior dimensions must be included. Show all exit door locations, including sliding doors, and any windows or other features that are pertinent to your appeal. The plans may be a preliminary version, but are expected to represent your actual proposal for the use of your lot.

Please consult with the Assistant Zoning Administrator regarding required plans for non-conventional structures such as signs, construction cranes, etc.

**3. Town Acknowledgment:** Obtain a signed, dated memo or letter from the Town Clerk or Administrator of the Town where the variance is needed, acknowledging that you have informed them of your intention to apply for the variance(s). You probably will need to appear before the Town Board and/or Plan Commission, which will provide advisory input requested by the Board of Adjustment.

**APPLICANT SIGNATURE:**

*The undersigned hereby attests that all information provided is true and accurate, and further gives permission to Planning & Development staff and Board of Adjustment members to view the premises, in relation to the Appeal request made herein, during reasonable daylight hours.*

**Importance:** High

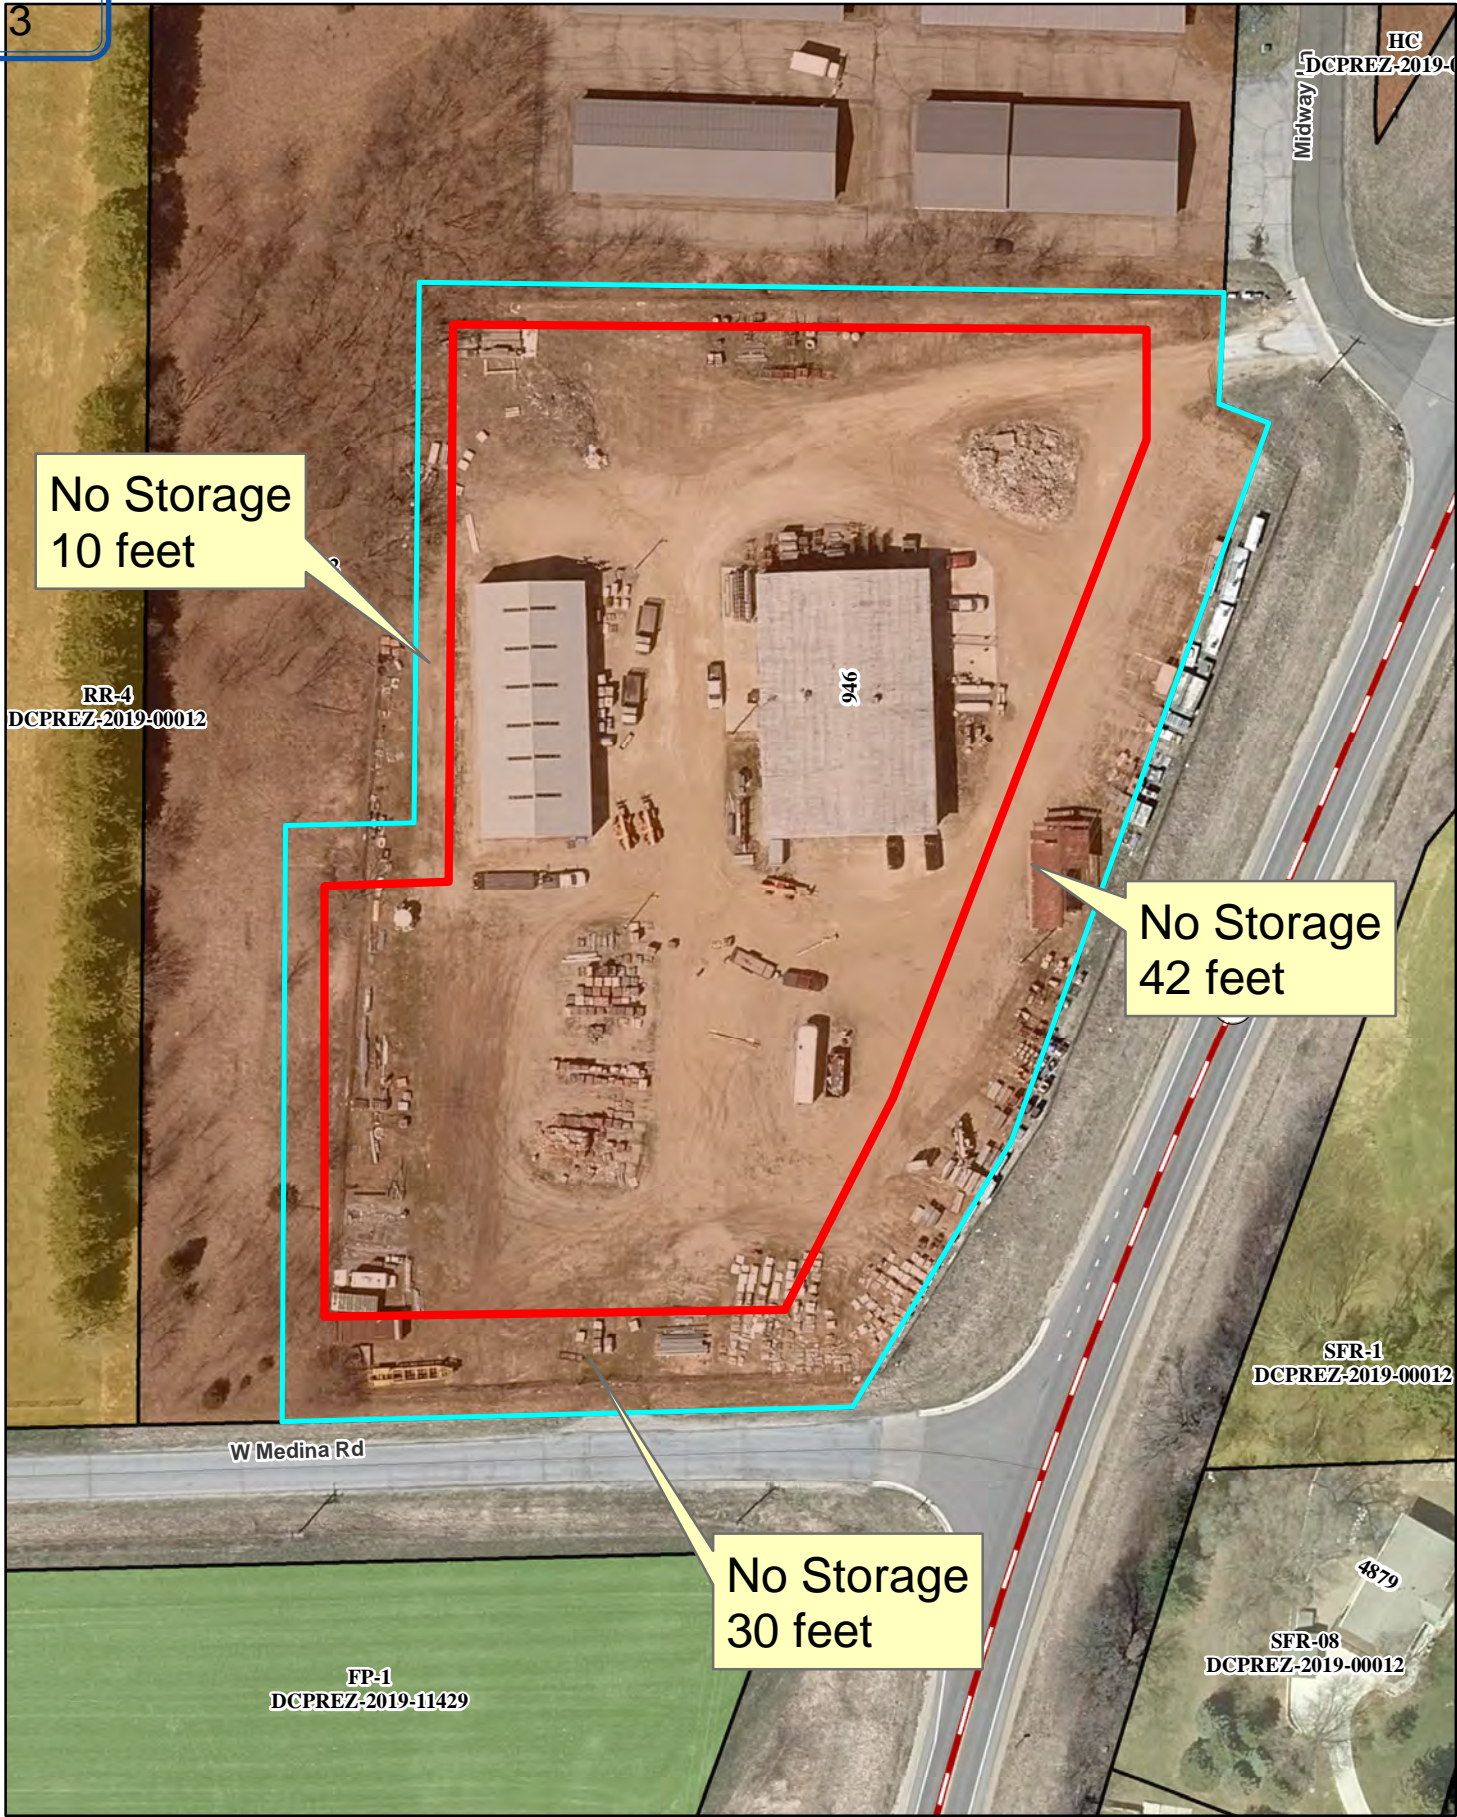

Good Afternoon,

On behalf of Attorney Charles V. Sweeney of Axley Attorneys and our Client, Robert Blume of Blume & Sons, LLC, we are requesting a Special Meeting in front of the Town of Medina Board of Supervisors regarding a variance for storage adjacent to the to the fence at the property located at [946 Medina Road, Marshall, WI](#).

Please let me know if I need to fill out special paperwork to be able to have a Special Meeting with the Board of Supervisors.

Thank you.

I am writing in favor of a variance to allow container storage within setbacks from the roads. The property is located at 946 Medina Road in Marshall, WI and is owned by Robert Blume of Blume & Sons, LLC.

My understanding is Robert Blume will be leasing the above-mentioned property. Part of the Lessee's operating procedure is to place their product next to the fence as a display. Their display consists of 24' containers stacked 3 high on the fence line of a property. This creates a barrier and isolates whatever is taking place within the facility and would minimize any noise or the addition of other activities. The product would be in neat and orderly straight line.

Attached to my approval is a picture of a container from one of the Lessees' yards.

We see no problem with this operation. In addition, we appreciate what Robert Blume, as landowner, has done to clean up the property. Attached are before and after pictures of the property.

Thank you.

I am writing in favor of a variance to allow container storage within setbacks from the roads. The property is located at 946 Medina Road in Marshall, WI and is owned by Robert Blume of Blume & Sons, LLC.

My understanding is Robert Blume will be leasing the above-mentioned property. Part of the Lessee's operating procedure is to place their product next to the fence as a display. Their display consists of 24' containers stacked 3 high on the fence line of a property. This creates a barrier and isolates whatever is taking place within the facility and would minimize any noise or the addition of other activities. The product would be in neat and orderly straight line.

Attached to my approval is a picture of a container from one of the Lessees' yards.

We see no problem with this operation. In addition, we appreciate what Robert Blume, as landowner, has done to clean up the property. Attached are before and after pictures of the property.

Thank you.

My understanding is Robert Blume will be leasing the above-mentioned property. Part of the Lessee's operating procedure is to place their product next to the fence as a display. Their display consists of 24' containers stacked 3 high on the fence line of a property. This creates a barrier and isolates whatever is taking place within the facility and would minimize any noise or the addition of other activities. The product would be in neat and orderly straight line.

Attached to my approval is a picture of a container from one of the Lessees' yards.

We see no problem with this operation. In addition, we appreciate what Robert Blume, as landowner, has done to clean up the property. Attached are before and after pictures of the property.

Thank you.
