

# Bid Waiver Form

Revised 01/2024

<b>Short Description of Goods/Services</b>	Police Vehicle Parts and Upfitting	<b>Total Cost</b>	\$190,063.95		
<b>Vendor Name</b>	10-33 Vehicle Services	<b>MUNIS #</b>	34506	<b>Req #</b>	1794
<b>Purchasing Officer</b>	Hazel Schuster	<b>Date</b>	5/3/24		
<b>Department</b>	Sheriff	<b>Email</b>	shelley.jenna@danesherriff.com		
<b>Name</b>	Jenna Shelley	<b>Phone</b>	608-575-4661		

**\*A VENDOR QUOTE MUST BE ATTACHED TO THE WAIVER FOR APPROVAL\***

**Provide a detailed description of the goods/services intended to be purchased:**

This waiver is requesting approval to outfit and expertly install appropriate end user components for thirteen Dodge Durango Police vehicles to be utilized by the Sheriff's Office in various sworn positions.

The Sheriff's office currently works with General Communications (GenComm) to outfit their squad vehicles through a State of Wisconsin contract – there are 20 Ford Police Interceptor Utility (PIUs) vehicles in the first batch of 2024 vehicles that are already in process of being upfitted by GenComm. GenComm had two dedicated technicians for Dane County, but one technician has since left the company. With the technician leaving, it means that GenComm is not able to outfit the 20 PIUs plus an additional thirteen Dodge Durangos this year. In addition to new squad builds, the remaining upfitting technician is responsible for all repairs, building specialty vehicles like the Beltline truck and any equipment upgrades (such as installing new docks for MDC changeovers). The other technicians at GenComm are booked for the rest of the year with other agencies. While GenComm very recently hired a new technician, it takes time to teach them how to correctly upfit a squad.

With the additional vehicles and GenComm being down one technician, it became obvious that the County needed to find a second, temporary upfitting vendor with the same level of attention to detail, similar or same upfitting process, technique, and expertise as GenComm so the Dodge Durangos could be built out and put into service in 2024. Consistency in wiring quality and upfitting technique ensures that the Durangos can easily be repaired by GenComm in the future.

The general required components include:

Police emergency red/blue/amber/white lighting (F/R windshield, grille, rear, and side), sirens, and all electrical components including controllers/interfaces, all wiring harnesses, antennas, nodes, software, and programming. Gun locks (T-rail Blac-rac and Loft), metal consoles, brackets, and hardware. Printers and mounts, mobile data center mounts/motion attachments, push bars, and all other necessary components.

Detailed quotes are included for all thirteen vehicles.

**\*Send to a Purchasing Officer Once Completed\***

# Bid Waiver Form

Revised 01/2024

## Procurement Exception List

- Emergency Procurement
- Unique and specific technical qualifications are required
- A special adaptation for a special purpose is required
- A unique or opportune buying condition exists
- Only one vendor possesses the unique and singularly available ability to meet the Department's requirements

**Provide a detailed explanation as to why the competitive bidding (RFB/RFP) process cannot be used. Also provide a detailed justification in relation to the Procurement Exception(s) chosen:**

Shortages and delays from the Covid-19 pandemic have led to ongoing logistical issues within the auto industry. Sourcing vehicles and parts continues to be a challenge. Due to the importance of safety, finding reliable vendors with a high level of integrity and understanding of the gravity and potential consequences of making a mistake is also a major challenge. With the specific and specialized nature of upfitting police vehicles, it would be extremely difficult and complex to utilize the RFP process which could potentially leave the door open for installation inconsistency and errors.

In 2023, 20 Ford Police Interceptor Utilities were ordered to replace aging squads in the field. For various reasons, including the ongoing national parts delays, order cancellations, and the United Automobile Workers strike, our Ford government liaison could not confirm if or when the PIUs would be produced or if the order would be canceled. To ensure that the Sheriff's office would have vehicles to keep on track with the replacement schedule, as a contingency plan thirteen Dodge Durangos were ordered before the order window closed. This means that in 2024 there is an additional batch of vehicles that need to be upfitted compared to a typical year.

The vendor that the Sheriff's Office believes would be the best fit possible to work with is 10-33 Vehicle Services located in Sullivan, WI. They offer quality consistent with GenComm and have availability to complete the builds this year. When contacting 10-33 Vehicle Services they responded promptly. When checking references they received positive reviews from other agencies. We completed a shop visit to 10-33 Vehicle Services with our current technician from GenComm and found that the quality 10-33 Vehicle Services offers is consistent with safe and reliable upfitting services. Their wiring techniques are best practice-- meaning wiring is installed cleanly with well secured runs and correct ignition sources. The 10-33 Vehicle Services shop is well organized and the owner was very helpful in figuring out build components. Quotes were prompt and the pricing is very comparable to GenComm. Since both 10-33 Vehicle Services and GenComm have the same attention to detail, while any significant repairs would go back to 10-33 Vehicle Services, the Sheriff's Office as well as GenComm feel strongly that if minor repairs on the Durangos are needed, GenComm could easily repair them.  
continues to page 3

## Bid Waiver Approval (For Purchasing Use Only)

Under \$44,000 (Controller)

\$44,000+ (Personnel & Finance Committee)

Date Approved:

**\*Send to a Purchasing Officer Once Completed\***

# Bid Waiver Form

Revised 01/2024

**(CONTINUED) Provide a detailed explanation as to why the competitive bidding (RFB/RFP) process cannot be used. Also provide a detailed justification in relation to the Procurement Exception(s) chosen:**

Continues from page 2

The Sheriff's Office reached out to three additional upfitting vendors and also spoke to other police agencies that have used these vendors. It was determined that these vendors do not meet our expectations. Here is what was found:

The City of Madison Radio Shop-- the Sheriff's Office has used this vendor in the past and their quality did not meet our expectations or emergency vehicle use case. Reference checks were completed and the city of Madison PD noted that in their installs there were significant electrical issues in the last several years due to incorrect ignition sourcing (especially with hybrids) and poor wiring practices. Around five or six years ago, the Sheriff's Office starting shifting work away from the Radio Shop due to poor quality and poor customer service. The Sheriff's Office has had firsthand experience in the past with issues such as electrical tape used to splice wires. These issues went unaddressed despite being brought to their attention on multiple occasions. Internally, progress has been made to ensure deputy and public safety – working with this vendor would be taking a step backwards in that regard.

Belco (Portage, WI)—When Belco was contacted it took three weeks for them to respond to the initial inquiry, and they stated they might have availability in the fall but could not confirm or commit to openings. There was very little positive feedback when the Sheriff's Office contacted clients of Belco. Sun Prairie PD had several squads built there and have experienced ongoing issues with those builds and they have to be pulled from service often for repairs. While it is impossible to eliminate all risks, sub-par work is a safety issue and therefore utilizing this vendor would not be in the best interest of the County.

Guardian Fleet Safety (Clear Lake, MN)—Guardian Fleet Safety received more positive reference checks but this vendor is located in Minnesota. It is not logistically possible to transport thirteen vehicles to the vendor especially when considering the time for tear downs or warranty repairs.
