The Dane County Highway & Transportation Department requests reclassification of the vacant IT Specialist (P8) to the new classification of Accountant (P8-9).

The Highway and Transportation Department has been restructured in order to better meet the needs of the department. When the IT Specialist position was vacated, it was determined by the Deputy Director Highway-Finance & Administration and the Highway Commissioner that the workload for IT duties has been streamlined but the financial division of Highway is understaffed. Reclassifying this position would allow the department to meet the challenges of balancing and prioritizing financial duties due to the high volume of financial transactions and ever-evolving complex regulations to be followed. In addition to official accounting standards and Dane County procedures and policies, the department must also follow a uniform cost accounting system as directed by the Wisconsin Department of Transportation under State Statute 83.015(3).

NOW, THEREFORE BE IT FINALLY RESOLVED that position #803, which is currently vacant, is authorized to be filled as Accountant.
