From: Adam Ussher  
Assistant Corporation Counsel – Airport Services

Subject: Underground Electric – Overhead Electric Easement  
Grantee: Madison Gas and Electric Company  
Location: Airport/Government Road

This Underground Electric – Overhead Electric Easement (“Easement”) involves County owned land adjacent to the Airport. The easement area crosses Government Road (see Exhibit A of the Easement). Pursuant to the Easement, Dane County is permitting Madison Gas and Electric Company (“MGE”) to place facilities over and underneath Government Road to connect existing facilities to the Oak Park Manufactured Homes Community to supplement existing electrical service to the community. All costs of construction, repair, and maintenance of the curb and road improvements in compliance with the terms of the Easement will be borne by MGE. Airport staff have determined that execution of this non-consideration easement document is in the best interest of Dane County.
